

## STAINLESS STEEL WELDING TUBE , STAINLESS STEEL SHEET , STAINLESS STEEL STRIP

### Stainless steel welding tube

ASTM A554

stainless steel welding tube for industry and household application  
dia:15.9mm – 114.3mm ( round and square ),  
thickness: 1mm-3mm. Main material type 201, 304 and 316.

ASTM A249 / ASTM A269

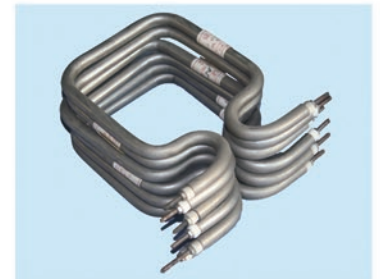

stainless steel welding tube for exhaust system, material type:  
409,409L, 304L.outer diameter:4mm - 76.2mm,  
thickness of tube: 0.30mm - 3.00mm

ASTM A249 / ASTM A269

stainless steel welding tube for making tubular heaters, main type  
have TP304, TP321, TP316/ TP316L, pipe outer diameter range from  
6mm - 31.8mm and thickness from 0.3mm to 1.5mm.

Common size including:7.5x0.5, 10x0.5,12x0.5, 16x0.7, 9.53x0.7,  
12.7x1.24 etc.

### Stainless steel sheet

ASTM A240 stainless steel sheet, steel grade: 201, 304,304L,316L, 317L,321, 310S, 430, 409L,439,  
436L, 444, 443, thickness:0.25mm-80mm,  
surface finish: No.1, 2B, 2D, No.4, BA,  
titanium coated stainless steel sheet with  
many kind of color.

Dimensions: 1m ×2m,4'×8',4'×10'and others.

### Stainless steel strip

Stainless steel grade including 201, 202, 301, 304,  
316L, 317L, 410S, 430 etc,  
thickness range: 0.05mm – 3mm,  
width range: 8mm – 250mm. with bright annealed  
surface, cold rolled surface, polish edge is available.
